The areas described aggregate 1,100 acres.

Description of Proposed Action: Dixie State University, as a part of their filming class, has proposed to film a documentary in the Virgin River Gorge area within the Arizona Strip Field Office. The film would include footage taken along Interstate 15 that crosses through the Virgin River Gorge and on-camera interviews to be held at Cedar Pockets Campground. The documentary called ‘My Father’s Highway’ is planned to be a part of the DocUtah Film Festival this fall and would follow the history of the Virgin River Gorge, the construction of Interstate 15 and those people that were involved with its construction.

The video shoot would be during daylight hours from July 11 to July 31, 2014 and the number of people involved would not exceed 10 per day. The filming crew would travel on existing roads for 2 days of filming at Cedar Pockets Campground (8 people proposed to be interviewed). They propose to film approximately 10-12 additional days for approximately 15-minute increments and use existing pull-outs throughout the Virgin River Gorge for short filming sessions. They plan to film a short segment at Twin Bridge and are coordinating with an Arizona Department of Transportation (ADOT) representative due to ongoing construction work. They are proposing to use 3 cameras that would either be hand-held or on tripods with most shots taken by a single cameraman with 1 tripod and 1 camera. Access to the sites would be done by 1 small vehicle (less than one ton) and there are no props, large vehicles, lighting equipment or animals proposed.

Permit would be subject to all provisions of 43 CFR 2920 including the terms and conditions identified in 43 CFR 2920.7, rental payments as provided by 43 CFR 2920.8, and mitigation measures/special conditions listed in Part V of this document.

PART II. – PLAN CONFORMANCE REVIEW

This proposed action is subject to the following land use plan(s): Arizona Strip Field Office Resource Management Plan (RMP)

Decisions and page nos.: MA-LR-06, page 2-71

“Individual land use authorizations (ROWs, permits, leases, easements) will be evaluated on a case-by-case basis in accordance with other RMP provisions and NEPA compliance. New land use authorizations will be discouraged within avoidance areas (i.e., ACECs, lands supporting listed species, NHTs, riparian areas, and areas managed to maintain wilderness characteristics) and allowed in such areas only when no reasonable alternative exists and impacts to these sensitive resources can be mitigated...”

Date plan approved/amended: January 29, 2008

This proposed action has been reviewed for conformance with these plans (43 CFR 1610.5-3, BLM Manual 1601.04.C.2).

A “minimum impact permit” is defined as one which authorized activities that “will not cause appreciable damage or disturbance to the public lands, their resources or improvements” (43 CFR 2920.2-2). All travel to and from the filming location would occur on existing roads. Filming would be done with a handheld camera, using a tripod as necessary. No set construction, use of heavy equipment, or use of explosives/pyrotechnics would occur. Filming would only take place within the highway right-of-way or at Cedar Pockets Campground both of which are not within a special designation area. No impacts to natural resources are therefore anticipated and the activity is considered “minimum impact”. In addition,

the proposed action does not conflict with other decisions in the LUP.

PART III. – NEPA COMPLIANCE DETERMINATION REVIEW

A. The proposed action is categorically excluded from further documentation under the National Environmental Policy Act (NEPA) in accordance with 516 DM 11.9, E (19);

Issuance of short-term (3 years or less) rights-of-way or land use authorizations for such uses as storage sites, apiary sites, and construction sites where the proposal includes rehabilitation to restore the land to its natural or original condition.

And

B. Extraordinary Circumstances Review: In accordance with **43 CFR 46.215**, any action that is normally categorically excluded must be subjected to sufficient environmental review to determine if it meets any of the 12 Extraordinary Circumstances described. If any circumstance applies to the action or project, and existing NEPA documentation does not adequately address it, then further NEPA analysis is required.

<p>Yes <input type="checkbox"/></p>	<p>No <input checked="" type="checkbox"/></p>	<p>Rationale: No. Because of the short duration and minimal impact of the proposed filming in the Virgin River Gorge and at the Virgin River Gorge Recreation area, there would not be significant impacts on recreation, wilderness or wild and scenic river segments. <p>Yes <input type="checkbox"/></p>	<p>No <input checked="" type="checkbox"/></p>	<p>Rationale: No. Proposed action is similar to previously authorized activities and does not represent a decision in principle about future actions with potentially significant environmental effects. <p>Yes <input type="checkbox"/></p>	<p>No <input checked="" type="checkbox"/></p>	<p>Rationale: There would be no cumulative effects because all vehicle use is limited to existing roads and proposed action is essentially no different than casual use that commonly occurs in the area.</p> <p style="text-align: right;">Preparer's Initials <u> MM </u></p>

(h) Have significant impacts on species listed, or proposed to be listed, on the List of Endangered or Threatened Species, or have significant impacts on designated Critical Habitat for these species.		
Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Rationale: No. The proposed action would not modify listed species habitat and there would be no more potential for disturbance associated with the proposed action to listed species than would already occur from ongoing recreational activities. No significant impacts would result from the proposed action because of the minimal impacting nature of the proposal. (j) Have a disproportionately high and adverse effect on low income or minority populations (Executive Order 12898).		
Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Rationale: No effect on low income or minority populations because proposed action is a short term activity located in a remote area some distance from residential populations. <div style="text-align: right;">Preparer's Initials <u> MM </u></div>
(k) Limit access to and ceremonial use of Indian sacred sites on Federal lands by Indian religious practitioners or significantly adversely affect the physical integrity of such sacred sites (Executive Order 13007).		
Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Rationale: No access would be limited by the proposed action. The permittee would use the same existing roads that other recreationalists use and would not restrict access to any area open to the public due to the minimal impacting nature of the proposal, as well as permit stipulation #13 in Mitigation Measures/Special Conditions of this CX. <div style="text-align: right;">Preparer's Initials <u> MM </u></div>
(l) Contribute to the introduction, continued existence, or spread of noxious weeds or non-native invasive species known to occur in the area or actions that may promote the introduction, growth, or expansion of the range of such species (Federal Noxious Weed Control Act and Executive Order 13112).		
Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Rationale: No impacts would result because of the minimal impacting nature of the proposal. See WBunting email dated 7/7/2014.

PART V. – COMPLIANCE REVIEW CONCLUSION

I have reviewed this plan conformance and NEPA compliance record, and have determined that the proposed project is in conformance with the approved land use plan and that no further environmental analysis is required.

I considered the short duration and low/minimum impacting nature of the proposal along with the additional mitigation measures/special conditions identified below which would not cause appreciable damage or disturbance to the public lands, their resources, or improvements in accordance with 43 CFR 2920.2-2. No surface disturbance is proposed and travel would only be on existing roads.

MITIGATION MEASURES/SPECIAL CONDITIONS/OTHER REMARKS:

1. This permit would authorize filming/photography ONLY at the location(s) specified in the permit. NO filming/photography in wilderness would be authorized.
2. This permit would be issued subject to the permittee's compliance with all applicable regulations contained in Title 43 Code of Federal Regulations part 2920.
3. The permittee would conduct all activities associated with the operation and termination of the permit within the authorized limits of the permit.
4. This permit would apply only to those lands administered by the Bureau of Land Management and does not apply to National Park Service, U.S. Forest Service, or Tribal land jurisdictions. The permittee would be responsible to contact any other governmental entity that may have jurisdiction, including the Arizona Department of Transportation and local government, and to obtain any authorizations that those entities determine necessary.
5. This permit would not give permission to cross over or use private land. The permittee would be fully responsible for all trespass on and/or damages to private land which may result from the permittee's activity.
6. Use areas would be maintained in a sanitary condition at all times; waste materials at those areas would be disposed of promptly at an appropriate waste disposal site. "Waste" means all discarded matter including, but not limited to, human waste, trash, garbage, refuse, oil drums, petroleum products, ashes, and equipment. "Waste" also includes the creation of micro-trash such as bottle caps, pull tabs, broken glass, cigarette butts, small plastic, food materials, bullets, bullet casings, etc. No micro-trash would be left at use areas.
7. The Bureau of Land Management would reserve the right to take photographs of any aspect of filming/photography operations for official case file records.
8. No staging areas or off-road vehicle travel would be authorized.
9. Permittee would be responsible for the supervision of all participants, spectators, and other persons associated with the activity, and would be responsible for public safety on-site.
10. Permittee would do everything reasonable, both independently and/or upon request of the authorized officer to prevent and suppress fires caused by their activity on or near lands utilized. Compensation

may be required of the permittee for Federal, state, or private interests in suppression and rehabilitation expenses.

11. Where California condors visit the area while activities are underway, the permittee would avoid interaction with condors. Authorized activities would be modified, relocated, or delayed if those activities have adverse effects on condors. Authorized activities would cease until the bird leaves on its own or until techniques are employed by permitted personnel that result in the individual condor leaving the area. The permittee is required to notify the Bureau of Land Management wildlife team lead (435-688-3373) of this interaction within 24 hours of its occurring.
12. Photography activities would be conducted in a manner that does not disrupt other visitor's recreational experience. Permittee would not restrict access to any area open to the public.
13. If in connection with use any human remains, funerary objects, sacred objects or objects of cultural patrimony as defined in the Native American Graves Protection and Repatriation Act (P.L. 101-601; 104 Stat. 3048; 25 U.S.C. 3001) are discovered, the permittee would stop use in the immediate area of the discovery, protect the remains and objects, and immediately notify the authorized officer. The permittee shall continue to protect the immediate area of the discovery until notified by the authorized officer that use may resume.
